

Assignment -3
Python - Flask - Db2

Assignment Date	25 September 2022
Student Name	J.Rilwana Parveen
Student Roll Number	912619104020
Maximum Marks	2 Marks

Question-1:

- 1 . Create User table with user with email , Username , roll number , password.
- 2 . Perform UPDATE , DELETE Queries with user table.
- 3 . Connect python code to db2
- 4 . Create a flask app with registration page. login page and welcome page. By default load the registration page once the user enters all the fields store the data in database and navigate to login page authenticate user username and password . If the user is valid show the welcome page.

The screenshot shows a web browser window with a single tab titled 'Signup'. The address bar displays '127.0.0.1:5000'. The main content area features a white rounded rectangle centered on a light gray background. Inside this rectangle, the word 'SignUp' is written in a large, bold, orange font at the top. Below it, there are four text input fields, each preceded by a label: 'Username :', 'Roll Number :', 'Email :', and 'Password :'. At the bottom of the form is an orange button with the text 'SignIn' in white. Below the button, the text 'Already have an Account ?' is followed by a red 'SignIn' link.
